## CARTER'S LITTLE LIVER PILLS.

Another national bank is to be  
started at Roanoke.

Addison Leach, a prominent citi-  
zen of Monroe county, was kicked  
to death by a horse.

A military company composed of  
employees of the Roanoke Machine  
Works has been organized.

Over one hundred workmen in the  
coal mines of Mercer county, have  
been discharged because they failed  
to spend as much as \$30 a month of  
their wages in the store operated by  
the company employing them.

The New York Herald and Sun,  
both of which did all they could to  
prevent the nomination of Mr. Cleve-  
land, are urging their readers to vote  
the Democratic ticket to save the Sab-  
bath States from the perils of the  
force bill.

The New Haven (Conn.) News,  
which for ten years has been an in-  
dependent paper, has put up the  
names of the Democratic candidates  
for President and Vice-President, and  
announced that hereafter it will be a  
Democratic paper.

Characteristics of Hood's Sarsaparilla: The  
largest sale, the most merit, the greatest  
cures. Try it; and realize its benefits.

Ex-Gov. Wm. Pitt Kellogg, of  
Louisiana, is quoted as saying: "I  
am a Republican dyed in the wool,  
but I will tell you that Grover Cleve-  
land will be the next President of the  
United States if he lives until 12  
o'clock noon the 4th of March next.  
Harrison won't make a much better  
showing than General Scott did in  
1852."

Chauncey M. Depew, the great  
New York Republican, who managed  
Harrison's forces at Minneapolis, and  
made the chief nominating speech in  
his interest, made a speech at the  
Pryor banquet in New York in 1890,  
in which he said of Cleveland:

"If I am to name the typical Ameri-  
can, the man who loves and believes  
in his country above everything else,  
the man who determined once in what  
direction his life leads, cannot be  
swayed from his path—the man who  
is doggedly persistent in what he be-  
lieves to be right—the man who  
thinks not of self but of his country  
and its needs, I would name Grover  
Cleveland."

"The third party," said Col.  
O'Ferrall, of Virginia, who has given  
the subject a good deal of his atten-  
tion, "cannot carry any Southern  
State. Weaver can do less harm  
than almost any candidate the third  
party could have put in the field.  
He is known to be a wild and erratic  
man—everything by turns and noth-  
ing long—first a Southsiding, South-  
damning Republican, then a Green-  
backer, then a Knight of Labor, then  
a Democrat, then an Alliance man  
and now a third partyite. He has  
exhausted the vocabulary in his de-  
nunciation of the Southern people  
and declared that those who were  
not shot or hung are again conspiring  
to get possession of the government."

I hold that a properly adjusted  
conception between home and foreign  
products is the best gauge by which  
to regulate international trade. Du-  
ties should be so high that our man-  
ufacturers can fairly compete with  
foreign products, but not so high as  
to enable them to drive out the for-  
eign article, enjoy a monopoly of the  
trade and regulate the prices as they  
please. This is my doctrine of pro-  
tection. If Congress pursues this  
line of policy steadily we shall year  
by year approach more nearly to the  
basis of free trade, because we shall  
be more nearly able to compete with  
other nations on equal terms. I am  
for a protection which leads to ulti-  
mate free trade.—James A. Garfield.

The board of World's Fair Man-  
agers for West Virginia has deter-  
mined to issue an illustrated descrip-  
tive hand-book of the State for free dis-  
tribution at the fair, and Col. W. N.  
Chancellor, president, has given the  
work of preparing it to Geo. W.  
Summers, formerly of the Charlestown  
Gazette. It will treat in every detail  
of the natural resources of the State,  
its manufactures, industries, the  
many advantages offered to home-  
seekers and for the investment of cap-  
ital, and the great growth and devel-  
opment attained by West Virginia in  
the past few years, together with  
prospects for the future. No pains  
will be spared to make it complete,  
accurate and exhaustive. The book  
will contain 300 pages, and 40,000  
copies will be distributed free of  
charge. Mr. Summers will commence  
work at once, making Parkersburg  
his headquarters, and will visit every  
county in the State in search of in-  
formation and data for the book.

This will be a valuable means of  
making known to prospective settlers  
and investors what great opportuni-  
ties await them in West Virginia.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was af-  
flicted with Neuralgia and Rheumatism,  
the Stomach was disordered, his Liver was af-  
fected, he had indigestion, and was unable  
to eat, and he was terribly reduced in flesh and  
strength. Three bottles of Electric Bitters  
restored him to health.

Edward Shepherd, Harrisburg, Ill., had  
a running sore on his leg of eight years standing,  
and the blood of Electric Bitters was  
used by him, and he was cured.

Curiosity and Malignity.

"Ouida," in the North American  
Review for June, says:

Because a man or woman more  
gifted than the common multitude  
bestows upon the world some poem  
or romance, some picture, statue, or  
musical composition, of excellence  
and beauty, by what possible right  
can the world pry into his or her pri-  
vacy and discuss his or her fortunes  
and character? The work belongs to  
the public, the crowd, the world,  
does not. The invasion of private  
life and character never was so great  
or so general as it is in the last years  
of this century. It is born of two  
despicable parents, curiosity and  
malignity. Beneath all flattery,  
which too frequently covers with  
flowers the snake of inquisitiveness,  
the snake's hiss of envy may be heard  
by those who have ears to hear.  
It is a horrible something,  
some flaw, some moral or physical  
disease, some lesion of brain or de-  
cay of fortune, in the private life of  
those whom they profess to admire  
or adore, which brings the interviewer  
or crawling to the threshold and  
peering through the keyhole. What  
rapture for those who cannot write  
anything more worthy than a news-  
paper paragraph, to discover that the  
author of "Satanstoe" was an epilep-  
tic! What comfort for the "fortnightly"  
who cannot string rhymes together  
at a child's party to stand by the  
bedside of Heine and watch the  
pale Jew writhe and sweat!
